

I was not think that I will join to VETA. You know why? Because My name is Kulpuru Phevis That is why, ok.

First of all, I am thankful to Tejvan Sir. & this Institute. Because They have change the way of my thinking and attitude to life. I learned here not only English but also successful life strategies.

I was a most negative person earlier, so I took some wrong decisions regarding my career. Now I am positive and persistent. I have adopted two mottos in my life. "Whatever, I want to do, I do" and "I will persist until I succeed."

Secondly, I developed tremendous self-confidence through public speaking assignments and a positive environment.

Tejvan Sir is a knowledgeable and a genius. I learned valuable lessons from him. How to face difficulties and problems with confidence and courage in life. I will never forget him for the rest of my life. He taught us personality development, Time management, How to give an Interview. How to win friends, how to set deals with deadlines.

★ I would to say every student that if you use seriously thinking about giving direction to your life and becoming extraordinary, then you MUST join in this class.

In my Opinion, VETA is "a Two-month long dictionary of life."
