

Veta - A great part of my life

Good Morning Friends!

I want to share my views and experiences about Veta. On first day when I went to Veta I was very nervous because this is my first attempt in these type of institute. When I came to know that there are many persons who are much elder to me in my batch they are more superior to me and what about the teacher may be she is cruel or not give much attention to me which I required. These are the questions which puzzled my mind every time. But when I attended the two or three classes I felt much better from first day. I felt more comfortable with my classmates they are friendly to me. Our trainer Mrs. Preeti Pandey was also very loving, kind hearted and friendly mannered person. She looked us like her own child. She has made the environment more favourable for us. She taught in a very systematic manner and she also give attention to every child. I think no one is perfect everyone have some negative or positive qualities but if they get a proper guidance then only they become a perfect human-being.

"The best way to raise your dreams
Come true is to raise up"

I think it's a grand time that I had at the Veta institute last two months. My mom encourage me to express my feeling about Veta. Then it became a duty for me because to write about Veta was quite a tough job.

You can't accept a dare
Why you are getting fear
You will not have single fear
You should always cheer
All will happen fair the future, I care
Let me learn to bear

I think Veta is the perfect institute for every student. It's my pleasure to be a member of Veta. I am highly thankful to all faculty members and all respected teachers for giving guidance how to speak fluently. When I had read the advertisement of Veta, I thought that it was only fake but now I can prove this through myself only that I was wrong that time.

"Good Education is an education that makes good family,
Good Education is an education that makes good citizen of our
Good Education is an education that makes a good citizen of the world"
I think these lines are more suitable for Veta only. At last I have a hope through my deep heart that Veta becomes a no. 1 institute of personality development throughout India.
